Metropolitan Commercial Bank Honored by Quality Services for the Autism Community

NEW YORK, N.Y. – May 12, 2017 – Metropolitan Commercial Bank was recently honored by Quality Services for the Autism Community (QSAC) in recognition of the Bank's continued charitable service and support of QSAC's work with the autism community. Metropolitan Commercial Bank's Senior Vice President and Head of Retail Banking Laura Capra, Vice President and Market Sales Manager George Lotto, Vice President and Relationship Manager Ralph Ventura, and Vice President and Market Sales Manager Joseph Seibert were in attendance at QSAC's Dinner Dance to accept the recognition.

QSAC is a New York City and Long Island- based nonprofit organization that offers a wide range of educational programs and support services to children and adults with autism and their family members.

"It is a tremendous honor to be recognized by QSAC, an organization that is helping hundreds of young children and adults with autism live independent, productive lives," said Ms. Capra.

"Metropolitan Commercial Bank's goal is to play an active and meaningful role in the communities in which we serve. We are looking forward to continuing our involvement with QSAC and its remarkable students."

In December of last year, members from the Bank's Retail Team participated in a day of service at the Douglaston-based QSAC center. There, the Bank assisted QSAC educators and interacted with the center's pre-school students. Additionally, earlier this year, the Bank's Great Neck banking center hosted QSAC's adult students for a wide-ranging financial literacy workshop.

"We are extremely grateful to have Metropolitan Commercial Bank as a community partner in our efforts to provide educational opportunities that will benefit our students with autism in their day-to-day lives," stated QSAC Director of Development Katie Joyner. "The Bank's volunteer efforts, along with its generous donation, have enabled us to make significant strides in enriching the services that we provide to students on the spectrum of all ages."
